Exit

Build a focused library

Patchies starts focused. Choose what you want to make and we'll enable the objects and presets you need. You can change this anytime.

Visuals

Make graphics, video, shaders, and interactive widgets

Music

Compose, sequence, perform, and play instruments

Sound Design

Craft signals, effects, and routing

Code & Data

Program, transform data, and explore computational systems

Connect

Work with networks, devices, cameras, and vision

Essentials are always included. — ●●● 3 selected
